**Subject:** SIT

Dobri Den Mr. Topoli,

I'm addressing myself to you as a technical associate of the Goodyear Innovation Center Luxembourg and I'm referring to the meeting on January 15th 2009 regarding your SIT concept.

After a first internal evaluation I'd like to tell you that we are interested in your SIT technology and would like to know more about it. Therefore we think about a technical readiness evaluation at your premises in Prague, in order to physically judge the concept feasibility on-site and to decide whether we will start a development project or not.

Thanks for getting back to me in order to discuss our interest in a meeting at yours soon.

Best regards,

Christian SPIEKER  
Engineer - Technical Writer
